HUMAN - MACHINE INTERACTIONS

Ipsita Praveen

HUMAN
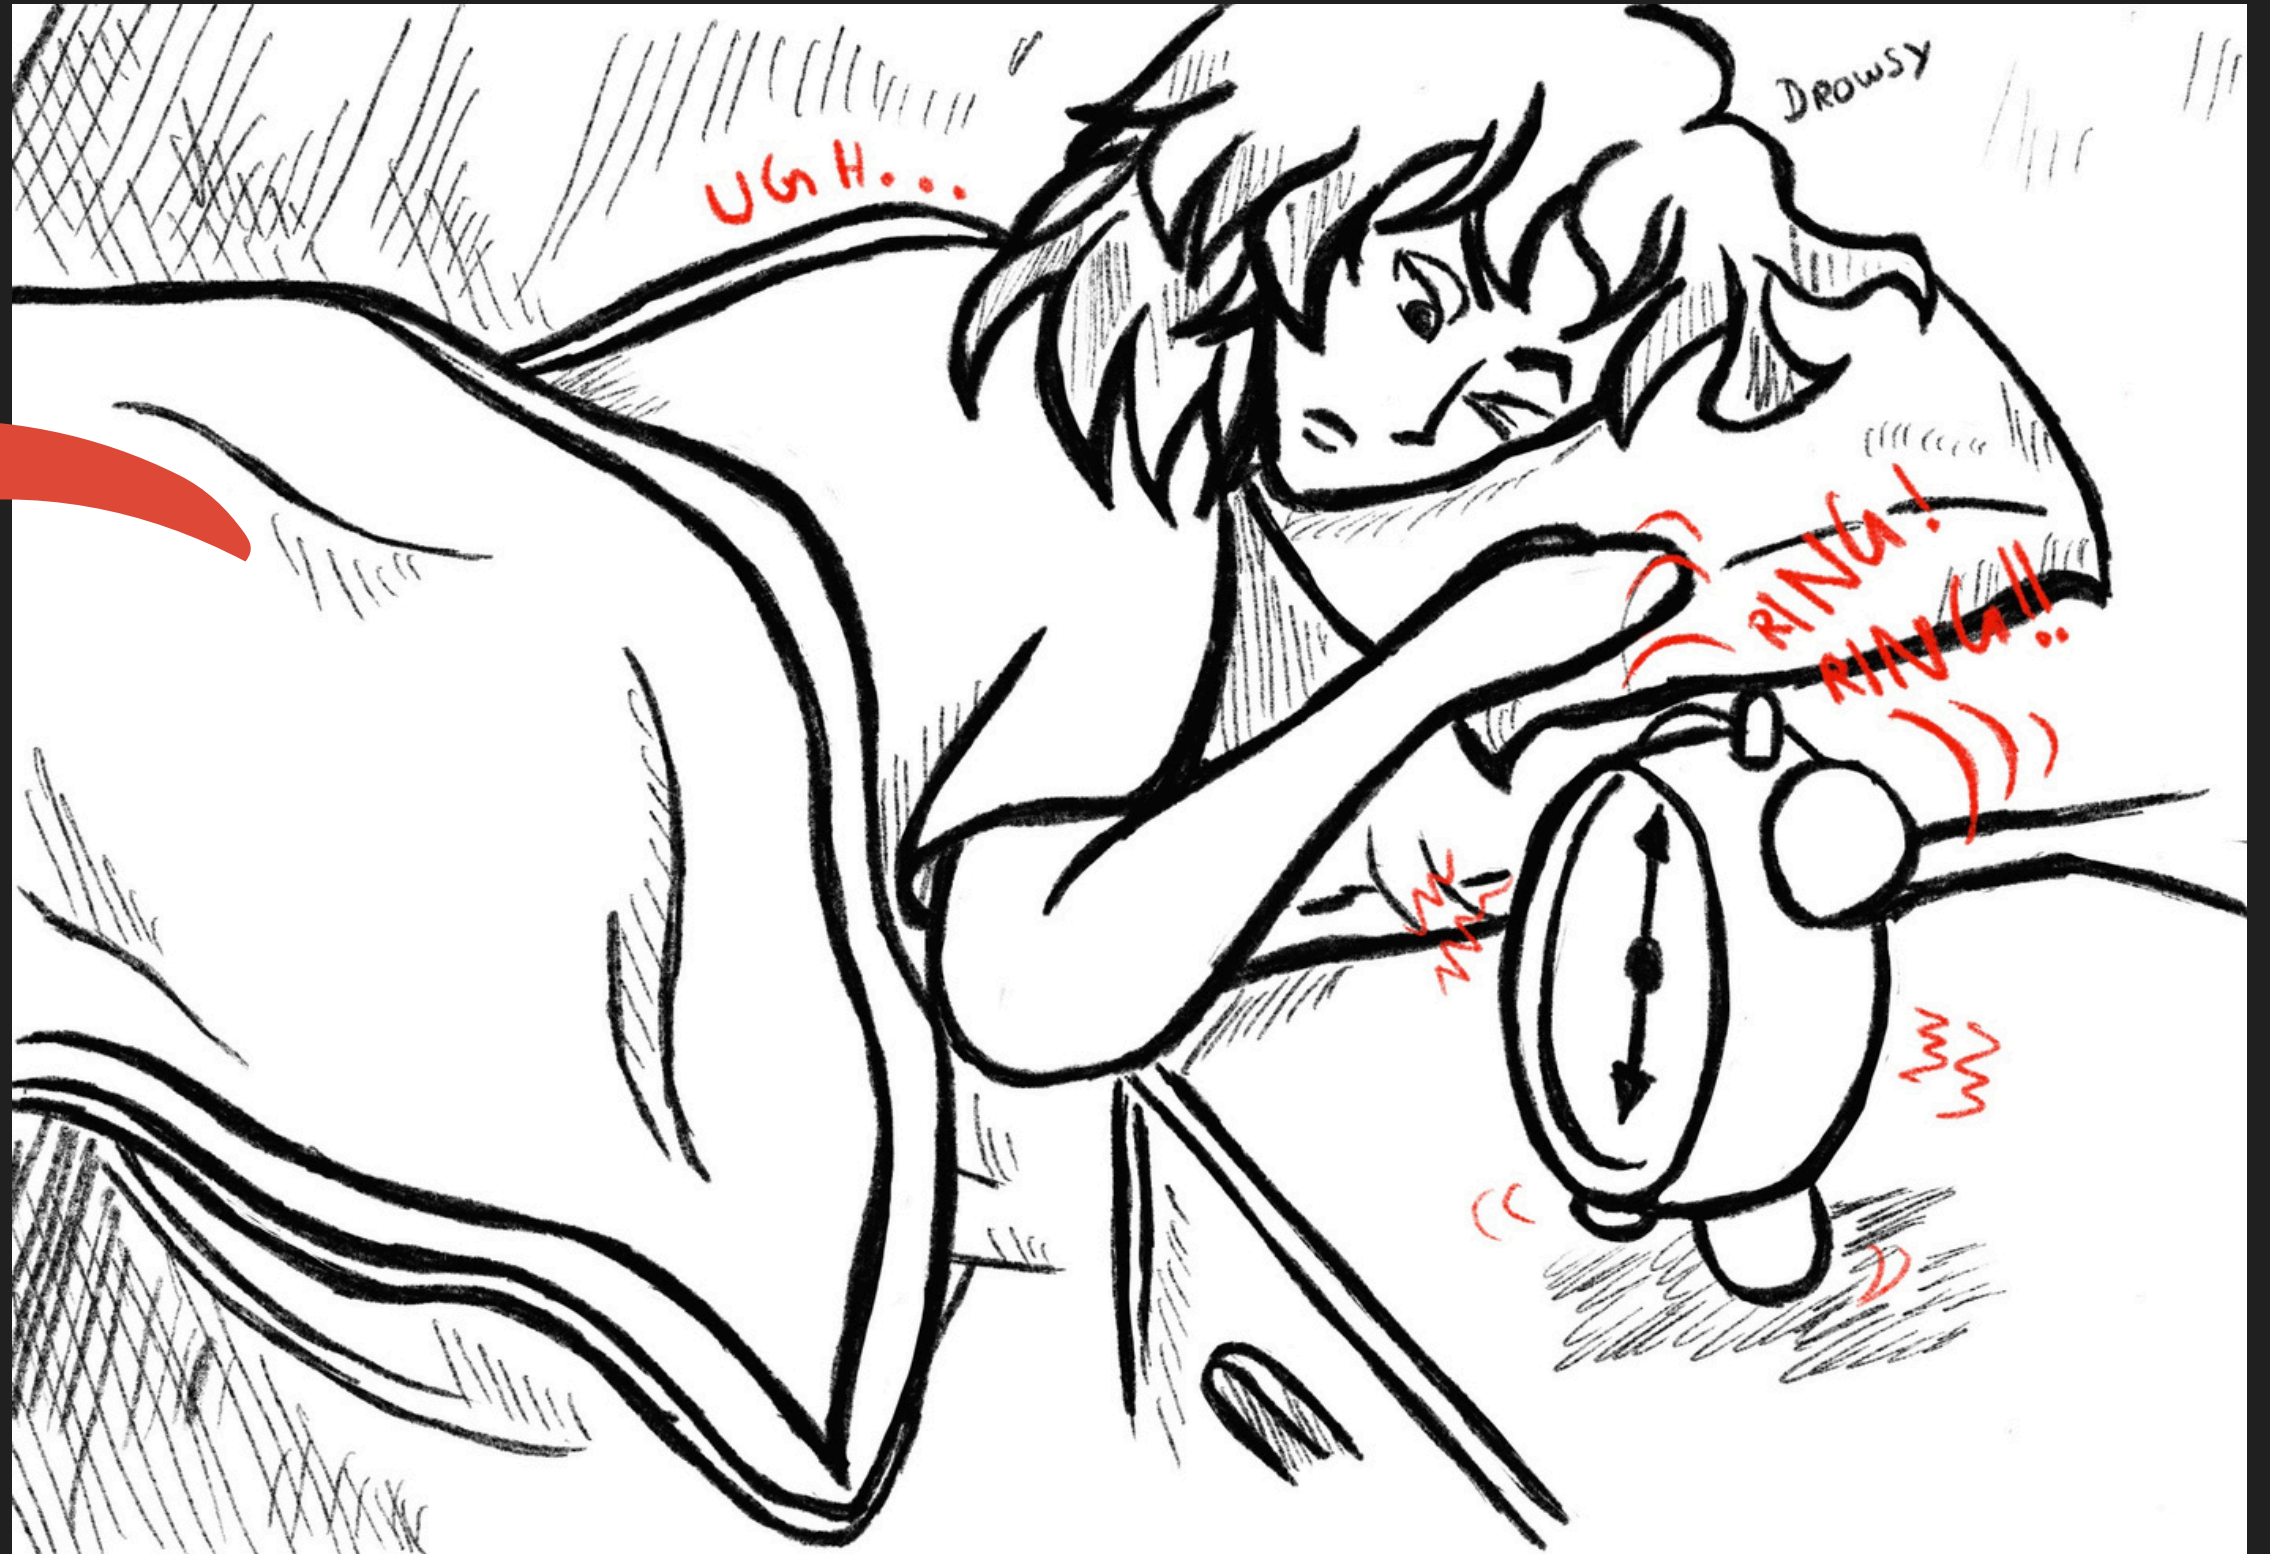

Influences the Interaction

Here the human scrolls through their twitter feed and interacts with the posts by liking / retweeting / replying. Their timeline is thus influenced and curated according to their activity and interests.

MACHINE

Influences the Interaction

The alarm rings in the morning which wakes the human up, thus influencing their actions.

HUMAN - MACHINE

Both Influence the Interaction

The human interacts with other players through online games, thus the game interacts back with the human through the actions of other players.
